Share a memorable experience that reaffirmed your faith or your vocation.

A memorable experience for me was a time when I lived with four other Sisters at one of our teaching missions. We prayed, worked, and had many fun times together. Our pastor helped provide our wonderful environment. It was an experience of renewal and affirmation for all of us.

What advice would you give someone considering a religious vocation?

If someone was considering a religious vocation, I would suggest that he/she spend time in prayer to hear the Holy Spirit guide them in their calling. That person would need to explore the various communities and find out what their charism is that motivates their way of life.
